Basic Life Support including AED

St.David's First Aid Training

STA Level 3 Award in Adult and Paediatric Basic Life Support including AED qualification aims to provide learners with the knowledge and practical competences required to be able to deal with an unresponsive adult, child or infant and competently implement the chain of survival. This qualification is regulated by Ofqual (England) and by Qualifications Wales (Wales).

Location	At your workplace
Course length	Half day
Cost	Depends on group size and location, please call us for a quote
Prerequisites	Age 16 years or older. Must be able to perform practical demonstrations on the floor.
Validity of award	Valid for 3 years

Topics

Be able to assess an emergency situation safely. This includes conducting a scene survey on an adult, child and infant and summoning appropriate assistance when necessary.

Be able to provide first aid to an unresponsive casualty who is breathing normally. This includes identifying when to place a casualty into the recovery position and how to do it on an adult, child and infant.

Be able to provide first aid to an unresponsive casualty who is not breathing normally. This includes learning when and how to perform Cardiopulmonary Resuscitation (CPR) and use of an Automated External Defibrillator (AED).

Assessment

Tutor assessed through practical demonstrations.

Additional information

There is an optional recommendation of attending a short First Aid refresher course annually.
